Release 282 (22-04-2026)

- An issue has been resolved where, during **GSTR-1 amendment**, saving the **JSON file** created **incorrect or mismatched party records** despite correct voucher updates. The system now ensures **proper party mapping, validation, and accurate GST data**.
- **Exempt entries** were not appearing in the **Annual GST Summary** when **E-commerce supply (Swiggy/Zomato)** was configured with **Exempt** in the **Sale Type**. This issue has now been resolved.
- Minor changes in JSON Structure for GSTR-4 for smooth uploading.
- A provision has been made to display a **negative sign in taxable value and tax amount** for **multi-rate vouchers** in the **GSTR-2A Voucher-wise Reconciliation report**, ensuring correct representation of adjustments.

Release 281 (03-04-2026)

- In the **RCM Consolidated Report**, the **Grand Total** was not refreshing when entries were hidden using the **F9** key. This issue has now been resolved.
- **RTE-5** was generated while accessing the **Reconcile GSTR-2A (Voucher-wise)** report when the same voucher number existed in both a **Purchase Voucher** and a **Purchase Return Voucher** within the same transaction period. This issue has now been resolved.
- Ineligible entries for **Central Transactions** were not displayed under **Output RCM** in the **Annual GST Summary Report**. The entries are now shown correctly.
- In **GSTR-9 (Annual Return)** and **GSTR-1**, **SEZ transaction values** were getting duplicated when the option **“Show Exempt/NR/ZR Entries in Taxable Invoice Separately”** was enabled. This issue has now been resolved.
- An **“Invalid Data”** error occurred while uploading **GSTR-1 Plain Excel generated from BUSY** due to blank space in the **“Nature of Document”** field. This issue has now been resolved.
- An issue was observed where the **Grand Total of mismatch entries** in the **GSTR-2A/2B Party-wise reconciliation report** did not accurately reflect the sum of mismatch records. The calculation has now been corrected.
- Users in **Saudi Arabia** were incorrectly receiving a **PIN Code warning**. Additionally, an error occurred while disabling the **“Restrict Sub-user to Change e-Invoice Applicability”** option. Both issues have now been resolved.
- New TDS category has been introduced "TDS on Payment by Partnership Firm to Partners" TDS Section 194 T.

[Back](#)

Release 279 (22-02-2026)

- A provision has been made to **delete all or selected downloaded GST returns at once with a single click**, helping users manage stored returns more efficiently.
- **TDS & TCS credit received details** from the **previous month** were getting automatically removed after downloading the **next month's data**. This issue has now been resolved.
- **RTE-457** was occurring in **Reconcile Table 8A of GSTR-9 vs GSTR-2B** (Party-wise and Voucher-wise). This issue has now been rectified.
- The **HSN code** is now displayed while printing **RCM Tax Invoices** for **Consolidated RCM vouchers** after manually updating the HSN. Earlier, the updated HSN was not appearing in print. This issue has now been resolved.
- A **warning message** will now be displayed if a **duplicate voucher number** is posted for the **same party** while entering a **Registered Expense (B2B)** through **Journal or Payment Vouchers**.
- Incorrect financial year is created when a company is registered using a GST number if the company trade name contains numeric characters. Now issue rectified.
- A Provision has been made to reconcile **BUSY data** with **Portal data** for the **GSTR-1 summary** prior to filing the return.
- For companies configured under **UAE**, the **ITC Eligibility** dropdown in **Multiple Account Creation/Modification** did not display UAE-relevant options. This issue has now been resolved.

[Back](#)

Release 278 (12-02-2026)

- Changes have been implemented in GST calculation mechanism for most tobacco products and Pan masala in accordance with the amendments effective from 1st February 2026

[Back](#)

Release 277 (07-02-2026)

- During **GSTR-1 Reconciliation**, the **HSN Summary** is not getting populated. Now Issue resolved.

[Back](#)

Release 276 (31-12-2025)

- A provision has been added to view **PAN-wise turnover** directly from **BUSY** through **GST Documents & Services**. The same option is also available in the **Company menu** and within the **company itself**, providing for user convenience.
- A provision has been made to allow users to **increase the number of rows** for defining the **HSN-wise summary of Outward Supplies** during **GSTR-9 preparation**, offering greater flexibility in data entry.
- An **RTE-3078** error occurred while pressing Enter in **Table 6A(1) of GSTR-9** when the **Pick Relevant ITC from Monthly Tagging** option was enabled. The issue has now been fixed.
- Additional Cess was not appearing in the **IMS report** in BUSY while downloading the report. This issue has now been resolved.
- A new provision has been added to allow users to change the return filing frequency (Monthly or Quarterly) directly from the BUSY.

[Back](#)

Release 275 (08-12-2025)

- Earlier only JSON and plain excel was available but now direct upload/download/reconciliation of GSTR-4 (Annual Return) has been provided.
- The GSTR-7 report was showing incorrect data when the same purchase bill number was used in purchase vouchers for different parties. Also, the error message incorrectly mentioned 'sales voucher' instead of 'purchase voucher'. Both issues have now been corrected.
- In Section 8 of GSTR-1 (effective May 2025), under *Nil-rated / Exempt and Non-GST*, Debit Note/Credit Note entries **without item posting** were incorrectly getting included **only in the on-enter report**. The main summary report was already correct. This discrepancy has now been fixed.
- Now, the **Sales/Purchase Register** in **Nepali VAT Reports** will be displayed in **chronological order** for easier review and better data accuracy.
- Supply Outward Register was showing only the first exempt item when multiple exempt items were entered in a voucher. Now, all exempt items are displayed correctly.
- A new option has been provided to **directly view CBIC circulars and notifications** from the **GST Documents & Services** section under **GST Misc. Utility**.
- A new provision has been added allowing users to **reconcile the Document Summary section** while reconciling **GSTR-1**.
- GSTR-9 Dashboard released, providing end-to-end support for Download, Reconciliation & Upload.
- GSTR4 Annual Upload has been provided with new templates.
- Previously, the system displayed an error when a sale was entered under the **"E-commerce Operator"** sale type for a party registered under GST. This behaviour has now been corrected, and such entries can be recorded without any error message.

[Back](#)

Release 274 (09-10-2025)

- The GSTR-7 report has been enhanced to include voucher-wise bifurcation at the invoice level, with additional columns — Voucher No., Voucher Date, and Invoice Value. This improvement provides better clarity, traceability, and transparency of TDS-related transactions.

[Back](#)

Release 273 (11-09-2025)

- Till now, users could generate the GSTR-4 Annual Return using the government template, whereas this provision was not available for other returns. This option has now been removed for better consistency
- The adjustment of advance tax done through 'Refund of Advance Received' was expected to appear under "Adjustment of Advances" in GSTR-1. However, it was incorrectly being shown under B2C (Small). Provision has been made.
- After switching from Branch User to Super User using Ctrl+U, downloading Orders or Notices was still showing the documents under the Branch User's credentials. This has now been corrected to ensure documents reflect the Super User's credentials.
- In a few cases, RTE-457 error was occurring while *Reconciling GSTR-2A and GSTR-2B (Party-wise/Voucher-wise)*. This issue has now been fixed.
- Earlier, Ineligible ITC {Section 17(5), Section 16(4), ITC Restricted Due to POS Rules} did not reflect in the ITC Claimed Summary. Now, a provision has been made to include these values for complete reporting.
- All material issued entries will now reflect in the Document Issued of GSTR-1 with Nature of Document as Delivery Challan for supply on approval for accurate GST filing.
- New Provision Added in GSTR-1 Document Summary to display Payment Vouchers against RCM.
- Minor changes has been done to display the total of HSN Summary in the GSTR-1 Reconciliation Report.
- RTE - 5 If we click on Download GST document from the company menu in case there is corrupted data. Now it has been rectified.

[Back](#)

Release 272 (22-07-2025)

- The option of 'Pick Place of Supply from Shipping Detail' was missing while generating GSTR-1 E-Return(from May 2025 onwards). Now issue rectified.
- When a voucher contains two different units with the same UQC and same HSN, the values in the HSN-wise Summary report were displayed correctly, but the 'On Enter' values did not match. Now issue rectified.
- Table 14 (E-commerce Supplies) entries can now be reconciled in the GSTR-1 Reconciliation report.

[Back](#)

Release 271 (27-06-2025)

- GSTR-4 annual return has been provided as per new templates.

[Back](#)

Release 270 (25-06-2025)

- RTE-5 was occurring while generating JSON for GSTR-1/IFF if there was no internet connection. Now problem resolved.

[Back](#)

Release 269 (07-06-2025)

- The option to generate GSTR-1 via Plain Excel and CSV, which was removed in version 12.7, has now been added back to improve user convenience. These options are available for Standard/Saffron version onwards.
- GSTR-1 Reconciliation has been updated to match the new structure provided on the GST portal.
- Users can now generate GSTR-1 e-return only for the HSN Summary—ideal for those whose B2B and credit notes are auto-transferred from the e-Invoice portal.
- In the On Enter Report of the HSN Summary section under GSTR-1, values were being interchanged due to the absence of the Nature of Transaction column. Now issue rectified.
- While uploading GSTR-1, sometimes showing 'Error in JSON structure validation' if debit/credit note transactions against export invoices exist in the JSON. Now problem rectified.

[Back](#)

Release 268 (03-06-2025)

- As per the new government template, HSN data in Table 12 is now separated into B2B and B2C categories. This change is applicable from May 2025 onwards.

[Back](#)

Release 267 (28-05-2025)

- If the date separator was set as a dot (.) in company's regional settings, RTE 13 – Type Mismatch occurred while opening the GST ITC-04 (Job Worker to Manufacturer) report. Now problem rectified.
- Minor changes has been done for summarizing Purchase/Expense wise ITC Report.
- If the JSON for a particular month is not downloaded, the GSTR-2B status shows as "Not Found" when pressing shortcut key F6 in the Account Ledger. Now issue rectified.
- GSTR-4 annual return has been provided as per new template.
- GSTR-3B return has been provided as per new template.

[Back](#)

Release 266 (05-05-2025)

- A provision has now been made to download all GST returns — GSTR-1, GSTR-2A, GSTR-2B, and GSTR-3B — in a single step, making it convenient for CAs and tax practitioners.
- A new report provided to reconcile ITC claimed in GSTR-3B and ITC utilised to pay output liabilities.
- Changes in IMS module
 - Provision made to view IMS summary through F6 shortcut to view the total number of invoices section-wise, such as B2B, credit notes, debit notes.
 - A new report option, '*Ignore Diff. of Voucher No.*', has been added for IMS. This allows the system to match vouchers even if there are slight differences in their voucher numbers.
- While creating parties in bulk using GSTIN, if any GSTIN was invalid, the error log incorrectly marked all subsequent parties as invalid. Now problem rectified.
- The following reconciliation reports have been added to assist in accurate GST return filing and analysis:
 - GSTR-3B vs GSTR-2A
 - GSTR-3B vs GSTR-2B
 - GSTR-3B vs GSTR-2A vs As per Our Books
 - GSTR-3B vs GSTR-2B vs As per Our Books
 - Table 8A of GSTR-9 vs GSTR-2A & GSTR-2B (Party-wise and Voucher-wise)

These reports will help users, CAs, and tax practitioners reconcile their GST returns more efficiently and with better clarity.

- Users can now view the Electronic Liability Register statement directly within BUSY, as per data available on the GST portal. Users no longer need to access the GST portal separately, enabling quicker and more convenient tax liability tracking.
- Users can now view the Electronic Credit Reversal and Reclaim statement directly within BUSY, as per data available on the GST portal. Users no longer need to access the GST portal separately, enabling quicker and more convenient tax liability tracking.
- Now user can validate only up to 100 GSTIN's & HSNs in one company collectively in Demo copy of BUSY.
- Now provision has been made to download GSTR-1A from BUSY itself. Now entries reflect in GSTR-1 A will be reconciled with GSTR-1.
- GSTR-3B E-return has been provide as per new template(Version 5.5).

[Back](#)

Release 265 (09-04-2025)

- While viewing Monthly ITC Tagging as per GSTR-2B, an RTE was encountered in some instances. Now problem rectified.

[Back](#)

Release 264 (11-03-2025)

- The option to check the live balance of the Cash/Credit Ledger directly in BUSY, as per the GST Portal, is now available. This feature provides real-time updates to users on the status of their ledger balances, improving financial visibility and accuracy.
- The Date filter in the E-way Bill Audit Report was not functioning correctly. This issue has now been rectified, and users can filter reports based on the desired date range.
- A new provision has been introduced to generate or upload GSTR-1 / IFF e-Return section-wise (e.g., B2B, B2C(Large), etc.), giving users greater control over their GST filing process and improving accuracy in submitting returns for different categories.
- A Reconciliation Report has been added to verify the difference between RCM (Reverse Charge Mechanism) paid and claimed. This feature ensures that businesses can efficiently track and reconcile their RCM-related transactions, preventing errors and ensuring compliance.

[Back](#)

Release 203 (21-01-2021)

- State 'Dadra & Nagar Haveli and Daman & Diu' was not being handled properly in GST reports. Now problem rectified.
- RCM voucher feeded through Purchase voucher; *RCM Eligibility & Tax Rate* was being picked from Account tagged in Item master. Now it will be picked through Tax Category tagged in Item master.
- GSTR-3B & GSTR-9 Excel format as per new template.
- Changes in E-Invoice:
 - a. Item Qty. was being shown wrongly for un-approved vouchers and E-Invoice generated for Alt. Unit. Now problem rectified.
 - b. E-Invoice for Dr/Cr Note; 'Item Description was not being shown'. Now it will be picked from 'Update HSN/SAC Description' utility on the basis of HSN Codes specified in Dr/Cr Note.
 - c. E-Invoice was not being generated for 'Other Territory' having state code as 97. Now it will be generated.
- TCS eReturn, Collection Code was always being shown as 'E' which was meant for scrap sales. Now it will be picked as specified during data entry and value '1H' will be treated as 'R' (meant for gross receipt) as there was confusion related to Collection Code for gross receipt and most of the users fed it as '1H'.
- TCS eReturn as per new FVU 7.0.
